

PRESS RELEASE

Olidata focuses on Threat Intelligence and signs an exclusive agreement for the distribution of Kitsune, an advanced Cyber Digital Intelligence solution

Rome, 10 July 2024_ In an increasingly complex and dynamic landscape as security landscape, threat intelligence solutions are establishing themselves as fundamental for the protection of critical infrastructures and sensitive data, enabling prevent cyber attacks before they occur. Olidata, which has always at the forefront of the technology sector, today signed an agreement with Meridian for the distribution of a Threat Intelligence platform. The agreement includes an exclusive for the national territory in the perimeter of PAC and PAL CUSTOMERS. Meridian is an international company specialising in cyber intelligence services.

The partnership envisages Olidata becoming the sole supplier of a solution that has already proven its effectiveness and reliability in the PA context.

The agreement, of high strategic value for the Olidata Group, aims at pooling specific expertise and create a national defence space; a strategic generation process understood as an inter-functional activity capable of integrate organisation and production.

Specifically, the solution, called Kitsune, is an advanced Made in Italy Cyber Digital Intelligence platform, designed to offer organisations comprehensive and proactive protection against digital threats.

proactive protection from digital threats. Kitsune Platform, specialising in the collection and correlation of information from over 50,000 OSINT sources, effectively monitors the web, darknet and social media to identify potential threats in real time.

"Kitsune is the result of a philosophy that enhances the Italian ability to combine knowledge and technology. This binomial must be the cardinal point to follow as it is able to lead us into the IT future within the new international chessboard," stated Cristiano Rufini, CEO of Olidata.
